## RECALIBRATION SYSTEM

# EASE OF USE

## WITH HIGH PRECISION

THE STANDARD IN INFORMATION AND DIAGNOSTICS SYSTEMS

# EZ-ADAS

MUCH MORE THAN JUST AN ADAS RECALIBRATION SYSTEM: A KIT OF ADVANCED TOOLS COMBINING EASE OF USE WITH HIGH PRECISION.

# EASE OF USE WITH HIGH PRECISION

## PDL4100

### Features.

#### LASER TECHNOLOGY

Laser-guided positioning for a fast and accurate target placement.

#### MIRROR LASER STAND

Easy centerline setup using mirror stand for accurate positioning.

## EZ ADAS RECALIBRATION SYSTEM

Ever more sophisticated and widely used, ADAS systems represent a challenge for bodyshops and car repair shops - a challenge that conceals a big opportunity. Even the simplest repair may involve one or more ADAS devices. A precise and efficient ADAS recalibration system can thus open up new business opportunities.

### Innovative standards.

The EZ ADAS recalibration system is an advanced kit of precision tools designed to innovative standards which is easy for even the first time user to use. It features a unique, fast and precise centerline setup, based on OEM procedures, for easy operation. The entire guided recalibration procedure consists of just a few easy steps - up to 40% less than the majority of commercially available systems - resulting in significantly improved productivity.

#### PATENT-PENDING TARGET POSITIONING

Target placement guides with OEM specifications.

#### FOLD-UP AND ROLL AWAY

Space-saving design reduces the need for extra shop storage.

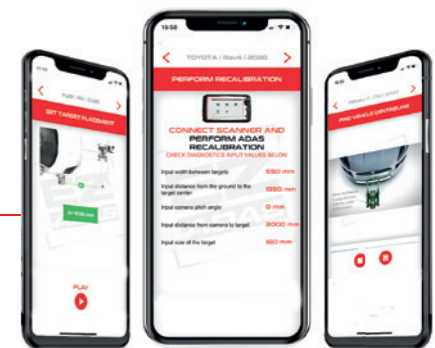

# UP TO 40% FEWER STEPS THAN OTHER AFTERMARKET ADAS SYSTEMS

## EXCLUSIVE MOBILE APP

The EZ-ADAS system offers an exclusive app with easy 3D videos that guide you through target placement and provides all the information needed to perform recalibrations. We've taken the time to understand the OEM procedures so you don't have to. Our target placement guide uses clear, easy steps directly identified from the OEM, eliminating uncertainty.

# COMPREHENSIVE ADAS COVERAGE

With the growing complexity of the ADAS market and increased development of new sensors, typically diverging across make, model or years, we focus on what is important for shops to put these vehicles back on the road quickly and safely. EZ-ADAS eliminates complexity to allow shops to perform accurate sensor recalibration by selecting radar, forward-facing or rear camera, covering the majority of vehicles on the market.

SOLD  
SEPARATELY

## PDL 4100

CALIBRATION COMPLETE!

PDL 4100 will allow you to get ADAS recalibration fully complete and also include functions you expect from a Sun® Diagnostic Tool: OEM-specific codes, data, tests, relearns and adaptations for an extensive vehicle make coverage across all major manufacturers.

SOLD  
SEPARATELY

## STORAGE CART

THE PERFECT SOLUTION TO ORGANIZE YOUR TARGETS  
AND ACCESSORIES

The EZ-ADAS cart provides a storage solution for all EZ-ADAS recalibration targets and accessories, and has additional space to store other accessories commonly used during ADAS calibration work.
